Art Unit: 1641

**1)** Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

**Group I**, claim(s) 15-21, 27, and 28, drawn to monoclonal antibodies capable of specifically recognizing a rapamycin, a hybridoma cell line capable of producing said monoclonal antibody and a kit comprising said monoclonal antibody.

**Group II**, claim(s) 22-24, drawn to immunogenic conjugates comprising a rapamycin portion and a protein portion.

**Group III**, claim(s) 25 and 26, drawn to drawn to a rapamycin having an activated coupling group.

**2)** The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Groups I-III each possess a special technical feature which is structurally, biologically and chemically different and therefore patentably distinct from the special technical features of the other groups. The special technical feature of Group I is an antibody which specifically recognizes rapamycin. The special technical feature of Group II is an immunogenic conjugate which does not use the antibody of Group I, i.e. it comprises different components, a rapamycin portion and a protein portion. The special technical feature of Group III is a rapamycin having an activated coupling group. This functionalized rapamycin is a different product from that of Groups I and II. Therefore, Groups I-III do not relate to a single general inventive concept, i.e. the drug-protein conjugates, antibodies, and activated drug molecules of the instant application are structurally, biologically, and chemically distinct from each other.

**3)** Applicants are advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1641

4) Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5) Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mary E. (Molly) Ceperley whose telephone number is (703) 308-4239. The examiner can normally be reached from 8 a.m. to 5 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Long Le, can be reached at (703) 305-3399. The fax phone number for responses to be filed BEFORE final rejection is (703) 872-9306. The fax phone number for responses to be filed AFTER final rejection is (703) 872-9307.

Questions which are NOT RELATED TO THE EXAMINATION ON THE MERITS, should be directed to **TC 1600 CUSTOMER SERVICE at (703) 308-0198**. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0196.
